---

Eric,

Some of the parcels include multiple buildings, and inspection includes individual building assessments. Individual assessments vary in some cases within the same parcel. If we transfer assessment values then we will need to have a logic to transfer this 1 to many info.

Also some of the statuses show up as 'Inspected' in map, but have null data in attribute table. Assuming higher priority to map document, we can update these records if you want.

Let me know. I will wait for you reply.

Thanks

Raj Dutt, GISP

Take a look at this and see if we can tie the assessments to the existing parcel layer
